Subject: Notification trustees Department of Interior

From information provided by EPA Region 6 on the proposed Wilcox site to the NPL, the U.S. Department of Interior (DOI) became aware of this Superfund Site in May 2013.

They requested further information to the Oklahoma Department of Environmental Quality (ODEQ) and in summer 2013 they visited the site with representatives from the U.S Fish and Wildlife Service (FWS).

The Site was finalized to the National Priorities List (NPL) on December 12, 2013. On February 14, 2014, the DOI designated points of contact at the DOI Bureau Offices of U.S Fish and Wildlife Service, the Bureau of Indian Affairs and the U.S. Geological Survey. This personnel will be given the opportunity to be included on the Site Planning Team for this site.
